

## **THE REGIONAL SCIENCE ASSOCIATION INTERNATIONAL**

The Regional Science Association International (RSAI) is an interdisciplinary, international organisation focusing on understanding the growth and development of urban, regional and international systems. This is promoted through meetings and publications, developing appropriate concepts and methods of analysis, and through the discussion of regional problems and policies. The Australia and New Zealand Section (ANZRSAI) is the local 'branch' of the international body. The broad membership of the ANZRSAI Inc., together with its international affiliation with over 35 countries, provides an Australia – New Zealand perspective within a global regional development context.

- The ANZRSAI's goals are:
- To disseminate knowledge relevant to regional issues and process.
- To encourage research and analysis in fields relevant to regional policy and process.
- To provide forums for the discussion of research, planning and process.
- To encourage and facilitate the professional development of those involved in regional economic and social research, policy and practice.
- To develop policies in liaison with relevant agencies with respect to regional analysis and process.
- To raise community awareness of regional economic and social policy and practice.

Through its annual conference, meetings and publications, the ANZRSAI Inc. encourages members to participate in discussions in order to achieve greater recognition of the need for regional development policy and practice, and to ensure that appropriate structures are pursued within regions in support of regional development based upon analysis and appropriate planning. It is committed to ensuring that Australian regional development process is of a quality that is recognised worldwide.

The ANZRSAI membership encompasses people from many disciplines, including economists, geographers, planners, educators, engineers and consultants, and from many fields of activity; government, universities, research and planning establishments and the private sector. A major strength of the Association lies in the interaction of these various perspectives.

Membership is open to any individual or institution with an interest in regional issues. Annual membership subscription for individuals is \$80 (Student and Emeritus subscription \$40.00). Institutional Membership is \$40 for the institution then \$40 for each member pa. Members receive the academic journal published three times yearly

by the ANZRSAI; the *Australasian Journal of Regional Studies*. They also receive Sustaining Regions, the Newsletter of ANZRSAI . For membership enquiries and/or further information, contact:

The Executive Officer, ANZRSAI Inc., via our website at [www.anzrsai.org](http://www.anzrsai.org) or email [anzrsai@anzrsai.org](mailto:anzrsai@anzrsai.org).

# ***AUSTRALASIAN JOURNAL OF REGIONAL STUDIES***

## **Notes for Contributors**

*The Australasian Journal of Regional Studies* (AJRS) is a refereed journal published by the Australia and New Zealand Regional Science Association International Inc. This non-profit organisation is dedicated to improving our understanding of regional economic and social conditions and development processes in both the Australasian region and the world at large through research and the discussion of ideas. We welcome contributed articles falling within the broad disciplinary scope of economics, geography, urban and regional planning, demography, environmental resource management, and related public policy.

Articles may be theoretical, philosophical, or empirical in spirit. For example, AJRS regularly publishes (a) cutting edge theoretical and empirical articles on the processes shaping regional economies; (b) analyses of current and emerging regional economic and social conditions often employing innovative data sets and statistical techniques; (c) analyses of short to medium term prognoses for regional development resulting from globalisation, changing macro- and micro-economic settings, or emergent technologies – among other things, and (d) penetrating conceptual, philosophical or ideological articles on the capacities of various tiers of government or communities to develop strategies to remedy or ameliorate regional problems identified through (a) to (c).

**Manuscripts** should be sent electronically to [our](mailto:our) Editorial team at [journal@anzrsai.org](mailto:journal@anzrsai.org). The Editorial team is Adjunct Professor Paul Collits (University of the Sunshine Coast and Gosford City Council), Professor Mike Hefferan (University of the Sunshine Coast), Dr Wayne Graham (University of the Sunshine Coast) and Professor Bruce Wilson (European Union Centre at RMIT University).

Articles of up to about 6,000 words and length should be double spaced. They should also follow the formatting guidelines found below.

- (1) A cover page with the title of the paper; authors' names, postal and email addresses; and organisational affiliation. If there is more than one author, please specify the corresponding author to whom acknowledgement, queries or reports should be sent. Referees will **not** receive this page.
- (2) Page two must be headed by the article's title and an abstract of between 100-150 words. The latter will be self-contained and not use undefined abbreviations or references. After the abstract, please provide (i) not more than

5 key words, and (ii) any acknowledgements of, for example, research grants on which the article depends. Authors' names should **not** appear (the refereeing process is double-blind). The article's text immediately follows these preliminaries.

- (3) Tables and figures must be supplied on separate sheets and not be integrated into the main text. They can be attached to the end of the text or submitted as a separate document. Tables should be created in word using times font and shading should be avoided. All tables and figures should be mentioned in the text and numbered using Arabic numerals. Captions and legends should be grouped together in a list. Figures and line drawings should be of a quality suitable for printing and will not normally be redrawn by the publisher. Since the journal is published electronically, we can, however, accept colour figures. Please make sure that sources are given for tables and figures.
- (4) Footnotes and appendices should be avoided.
- (5) Textual references should give the author's name, with year of publication in parentheses. Multiple publications by the same author in the same year should have (a), (b), etc. Appended

Page Size:	A4 Portrait	
Page Margins:	Left:	4.75 cm
	Right:	4.75 cm
	Top edge to top of header:	5.0 cm
	Top edge to top of text:	6.0 cm
	Bottom edge to bottom of text:	5.4 cm
Title of Article:	On first page of article: <b>16 pt Times, block capitals, bold, NOT justified, top of text area.</b>	
Author(s) Name(s):	Miss a line below title: <b>12 pt Times, Upper and Lower Case, bold, NOT justified.</b>	
Author(s) Affiliation(s)	Next line, 10 pt Times font, NOT bold, NOT justified Position (e.g. Senior Lecturer), Department or School, University or Business or Government Department, City, State, Postcode, Country.	

Abstract:                   **ABSTRACT:**   Heading bolded, text unbolded starts after tab, text justified to left and right margins, single line spacing).

Quotations, if any, after Abstract: 11 pt Times font, centred (quote), author of quote centred below, NOT bolded, 1-line gap from abstract text.

Major Headings:           Miss one line after Abstract or quotations, section number, section description, blocked text, bold, Times 11 pt font, left margin.

## **1. INTRODUCTION**

Minor (Sub-)Headings:   Times 11 pt font, bold, Title Case, italicised and NOT numbered

### ***Input-Output Analysis***

Text:                       Miss one line after heading. Text is single line spacing in 11 pt Times font; left and right justified; paragraphs start indented three characters; no space between paragraphs within sections

Tables, Diagrams and Maps:

Titles: 11 pt Times font, Table and table number (or Figure number) followed by a full-stop bolded (**Table 1.**); name of Table (or Figure) follows after one space, NOT bolded, key words start with capital letter; line spaces before title and after table or figure.

Authors should indicate sources of Tables, Diagrams and Maps; for self-created items use: Source: the Author (or Authors) as appropriate.

Tables, Diagrams and Maps should be of good quality for immediate reproduction. Items may be in colour since the Journal is published on-line.

- References (heading):    **REFERENCES**  11 pt Times, Block Capitals, bolded heading; then use alphabetical order for individual references.
- Individual References:    11 pt Times, NOT bolded, see specific examples below for different classes of publication.
- Journal Article:            Baker, R. G. V. (1994). On travel behaviour relative general place utility field. *Environment and Planning A*, 26, pp. 1455-1474.
- Journal Article with Additional DOI Information: Hořava, P. (2009). Quantum gravity at a Lifshitz point. *Physical Review D*, 79(8), DOI:10.1103/PhysRevD.79.084008.
